Non-GAAP Financial Information:

In addition to reporting financial results in accordance with accounting principles generally accepted in the United States ("GAAP"), the Company uses EBITDA, adjusted EBITDA, adjusted net income and adjusted earnings per share measures of performance to evaluate the effectiveness of its business strategies, to make budgeting decisions and to compare its performance against that of other peer companies using similar measures. Management believes it is useful to investors and analysts to evaluate these non-GAAP measures on the same basis as management uses to evaluate our operating results.

Adjusted EBITDA is defined as net income before interest expense, taxes, depreciation and amortization ("EBITDA") and other adjustments noted in the "Reconciliation of GAAP Net Income to Adjusted EBITDA" table below. Adjusted net income is defined as net income before the adjustments noted in table "Reconciliation of GAAP Net Income to Adjusted Net Income" below. Basic Adjusted earnings per share is calculated using adjusted net income and basic weighted average shares outstanding. Diluted Adjusted earnings per share is calculated using adjusted net income and diluted weighted average shares outstanding

EBITDA, Adjusted EBITDA, adjusted net income and adjusted earnings per share are non-GAAP measures and may not be comparable to similar measures reported by other companies. EBITDA, Adjusted EBITDA, adjusted net income and adjusted earnings per share have limitations as analytical tools, and you should not consider them in isolation or as a substitute for analysis of our results as reported under GAAP.

Beginning with the fourth quarter of fiscal 2020, we updated our definitions of adjusted EBITDA and adjusted net income to simplify our presentation and enhance comparability between periods. We no longer exclude new store pre-opening expenses from our presentation of adjusted EBITDA and adjusted net income. We also updated our definition of adjusted net income to exclude the tax impact of options exercises and vesting of restricted stock units. Lastly, debt extinguishment and modification costs were reclassified to the other adjustments line item within the presentation of both adjusted EBITDA and adjusted net income. The presentations for adjusted EBITDA and adjusted net income for the 13 and 39 weeks ended September 26, 2020 have been recast to reflect these changes. Reconciliations between the revised and previous definitions of adjusted EBITDA and adjusted net income for each quarter of fiscal years 2020 and 2019 were provided in our Form 8-K filed with the United States Securities and Exchange Commission ("SEC") on March 2, 2021.
