Eric Lindberg, CEO of Grocery Outlet, stated, "We are excited about our year-to-date performance, including better-than-expected top and bottom-line results in the first quarter. Traffic trends in the second quarter are strong as we believe consumers are increasingly looking to stretch their shopping dollar in light of inflation. As we look across our business, we are encouraged by the health of our supply pipeline as well as the excitement and dedication of our independent operators. In addition, we continue to make important investments in support of future growth which reinforces our confidence in delivering strong shareholder returns over the long term."

⁽¹⁾ Comparable store sales on a 3-year stacked basis represents the sum of the increase or decrease in comparable store sales, as reported, in the first quarters of fiscal 2022, 2021 and 2020.

⁽²⁾ Adjusted EBITDA, adjusted net income and adjusted diluted earnings per share are non-GAAP financial measures, which exclude the impact of certain special items. Please note that our non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. See the "Non-GAAP Financial Information" section of this release for additional information about these items.

Charles Bracher, CFO of Grocery Outlet, commented, "Our unique business model and compelling value proposition are increasingly relevant to customers in light of the current macroeconomic environment. Reflecting our strong first quarter results and continued momentum, we are raising our net sales and earnings guidance for fiscal 2022. And while we continue to prioritize investments in support of future growth, we recently utilized \$75 million of excess cash to opportunistically reduce leverage given rising interest rates."

Non-GAAP Financial Information:

In addition to reporting financial results in accordance with accounting principles generally accepted in the United States ("GAAP"), the Company uses EBITDA, adjusted EBITDA, adjusted net income and adjusted earnings per share as supplemental measures of performance to evaluate the effectiveness of its business strategies, to make budgeting decisions and to compare its performance against that of other peer companies using similar measures. In addition, the Company uses adjusted EBITDA to supplement GAAP measures of performance to evaluate performance in connection with compensation decisions. Management believes it is useful to investors and analysts to evaluate these non-GAAP measures on the same basis as management uses to evaluate the Company's operating results. Management believes that excluding items from operating income, net income and net income per diluted share that may not be indicative of, or are unrelated to, the Company's core operating results, and that may vary in frequency or magnitude, enhances the comparability of the Company's results and provides additional information for analyzing trends in the business.

Adjusted EBITDA is defined as net income before net interest expense, income taxes, depreciation and amortization expenses ("EBITDA") and adjusted to exclude share-based compensation expense, non-cash rent, asset impairment and gain or loss on disposition, provision for accounts receivable reserves and certain other expenses that may not be indicative of, or are unrelated to, the Company's core operating results, and that may vary in frequency or magnitude. Adjusted net income represents net income adjusted for the previously mentioned adjusted EBITDA adjustments, further adjusted for costs related to amortization of purchase accounting assets and deferred financing costs, tax adjustment to normalize the effective tax rate, and tax effect of total adjustments. Basic adjusted earnings per share is calculated using adjusted net income, as defined above, and basic weighted average shares outstanding. Diluted adjusted earnings per share is calculated using adjusted net income, as defined above, and diluted weighted average shares outstanding.

EBITDA, adjusted EBITDA, adjusted net income and adjusted earnings per share are non-GAAP measures and may not be comparable to similar measures reported by other companies. EBITDA, adjusted EBITDA, adjusted net income and adjusted earnings per share have limitations as analytical tools, and you should not consider them in isolation or as a substitute for analysis of the Company's results as reported under GAAP. The Company addresses the limitations of the non-GAAP measures through the use of various GAAP measures. In the future the Company will incur expenses or charges such as those added back to calculate adjusted EBITDA or adjusted net income. The presentation of EBITDA, adjusted EBITDA, adjusted net income and adjusted earnings per share should not be construed as an inference that future results will be unaffected by the adjustments used to derive these non-GAAP measures.

The Company has not reconciled the non-GAAP adjusted EBITDA and adjusted diluted earnings per share forward-looking guidance included in this release to the most directly comparable GAAP measures because this cannot be done without unreasonable effort due to the variability and low visibility with respect to taxes and non-recurring items, which are potential adjustments to future earnings. We expect the variability of these items to have a potentially unpredictable, and a potentially significant, impact on our future GAAP financial results.

Forward-Looking Statements:

This news release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. You should not rely upon forward-looking statements as predictions of future events. The events and circumstances reflected in the forward-looking statements are reasonable, the Company cannot guarantee that future results, levels of activity, performance or achievements. These forward-looking statements are made as of the date of this release or as of the date specified herein and the Company has based these forward-looking statements on

current expectations and projections about future events and trends. Except as required by law, the Company does not undertake any duty to update any of these forward-looking statements after the date of this news release or to conform these statements to actual results or revised expectations.
